Arrowhead Framework Development coordination telco

Agenda

1) Updates to Arrowhead Framework wiki

2) System service matrix, review

3) Historian, status

4) ServiceRegistry BNearIT, AITIA and LTU versions,
   Differences, features, code maturity. Merge to one common code base
   Who will lead?

5) Authorisation AA: BNearIT, AITIA and LTU versions
   Differences, features, code maturity. Merge to one common code base.
   Who will lead?

6) Authorisation AAA co-existance with Authorisation AA

7) Orchestration: BNearIT, AITIA and LTU versions
   Differences, features, code maturity. Merge to one common code base.
   Who will lead?

8) Core system road maps, maintainers short status report.

9) AoB
   Sign up for dev mailing list

ARROWHEAD

Updates to Arrowhead Framework wiki

Repository is now Git

Added section on Maintainers and Development coordination webex meetings

Checking links to repository

Deleting SPAM contributions

Request to maintainers

   Check uploaded documents and code

   Move of developments from xxx to Arrowhead Framework wiki

ARROWHEAD

System service matrix, review

Update of System_Service_matrix.

https://forge.soa4d.org/plugins/scmgit/cgi-bin/gitweb.cgi?p=arrowhead-f/arrowhead-f.git;a=blob;f=5_Compliance/3_System+service+matrix/Core+System-Service+Matrix.xlsx;h=59670b8dcd7bcfb3791f9d768a7db6f33bb69a46;hb=HEAD

ARROWHEAD

Mandatory core systems harmonisation and coexistence

- ServiceRegistry

- Autorisation AA & AAA

- Orchestration

I'm aware of three implementations

- BNearIT, Fredrik

- AITIA, Csaba

- LTU, Hasan

- LTU Auth AAA, Pablo

How to proceed for harmonisation and who will lead?

How to proceed for co-existence and who will lead?
